

It is our core philosophy to promote stable and secure investments for our clients. This portfolio enhances returns by exposure to the South African Private Equity Franchise Industry. The portfolio promotes: A fixed dividend return, [inflation driven] - improving on tax efficiency | Returns that are fixed net of fees | Investment term of 5 years - lowering transactional fees and improving consistency | Special dividend bonus on capital after 5 years - benefiting long term investors

Investment Objective

Is to create a long term stable return, in a lucrative, well established industry, by utilising Private Equity at the core of the portfolio. The objective for 2020 is specifically to further promote private equity in the Medical Franchise Industry. The fund managers' benchmark is to give a return of inflation plus six percent without taking high conviction risks. Should markets, interest rates and inflation fluctuate over the medium to long term, investors can rest assured that the sector they are invested in, has proven that it is recession and inflation resistant.

Risk Profile

Everest managers carefully select the underlying portfolio of assets, promoting exposure to real growth assets and not fluctuating listed equity. Secure capital due to quality management, safeguarding and retention of assets as well as a portfolio that, as its principle, is to increase turnover and investor dividend returns.

- * Private equity typically refers to investment funds organized as limited liability partnerships that are not publicly traded and whose investors are typically large institutional investors or informed individuals.
- * The portfolio is only suitable for long term investment horizons
- * Private Equity has a proven track record of high investment returns, for long term investors

Sector Focus

Franchising has proven to be resilient when faced with economic strife and at franchising's premise is the ability to enter into an already tried, tested and profitable model.

With a new drive towards the Medical Franchise Industry specifically, it is our aim to also eliminate the "Black Swan" risk, of these unexpected Covid-19 types of events, by shifting new investment into the "essential services" franchise sectors that have and will continue to be operational during events that critically test both local and global economies

Fund Information

Portfolio Managers	Thys Van Zyl & Jarryd Gillmer
Launch Date	01 June 2016
Portfolio Size	R 527 180 000

Is this solution for me?

- 1) Do I seek a consistent income yield, over the medium to long term, in a focused alternative asset portfolio
- 2) Am I ideally investing for at least 5 years
- 3) Am I comfortable with not having immediate access to funds

* These returns are not guaranteed, but it is the Managers opinion that they will persist under current market conditions

Information and Disclosures

General Information

INVESTMENT PERIOD	5 Years
RETURN ON INVESTMENT	Fixed & reviewable annually. Paid or accumulative monthly
CURRENT TAX	Management will withhold 20% Dividend Withholding Tax on dividends. Shares not held for 36 months may have adverse tax implications
SPECIAL DIVIDEND (BONUS)	Income Plans have a 5 year targeted special dividend, currently fixed at 10%
INVESTMENT ALLOCATION	100% of all funds invested allocated to the subscription of shares. Fees are recouped from underlying assets within portfolio and not directly off of an investors account
INVESTMENT TYPE	Portfolio is constructed utilising private (unlisted) equities and securities
INVESTORS RESPONSIBILITIES	No responsibility in terms of the management or actual involvement in operation of franchise assets. Investors are invited/required to attend annual shareholders meetings (in person or via proxy)

100.00%		Fixed Share Price until Redemption	R 5 000.00	Fixed Share Price until Redemption

Investment Manager

Everest Wealth Management Proprietary Limited. Everest is an authorised Financial Service Provider with registered FSP number: 795 CAT I & II & IIA.

Standard Conflict Disclosure

The Portfolio and Private Equity Managers have a vested right, through joint shareholding, in the portfolios they manage. Therefore the recoupment of fees and value to these Managers is directly based on the performance of underlying Assets within the Portfolio and is not taken off of the clients investment allocation. This allows Management teams to better align themselves to the goals of all investors, serving as the strongest motivation for Management to improve their business's performance
